装帧:Hardcover

isbn:9780195314656

The Vietnam War remains a topic of extraordinary interest, especially in light of the invasion of Iraq. In *The Vietnam War*, Mark Lawrence offers readers a superb short account of this key moment in U.S. as well as world history, based on the latest

European and American research and on newly opened archives in China, Russia, and Vietnam. While focusing on the American involvement from 1965 to 1975, Lawrence offers an unprecedentedly complete picture of all sides of the war, drawing on now available communist records to capture the complicated brew of motivations that drove the other side. Moreover, the book reaches back well before American forces set foot in Vietnam, describing for instance how French colonialism sparked the 1945 Vietnamese revolution, and revealing how the Cold War concerns of the 1950s warped Washington's perception of Vietnam, leading the United States to back the French and eventually become involved on the ground itself. Of course, the heart of the book is the "American war," ranging from the overthrow of Ngo Dinh Diem to the impact of the Tet Offensive on the political situation in the US, Johnson's withdrawal from the 1968 presidential race, Nixon's expansion of the war into Cambodia and Laos, and the final peace agreement of 1973, which ended American military involvement. Finally, the book examines the aftermath of the war, from the momentous liberalization--"Doi Moi"--in Vietnam that began in 1986, to the enduring legacy of the war in American books, films, and political debate. A quick and reliable primer on an intensely relevant topic, this well researched and engaging volume offers an invaluable overview of the Vietnam War.

# 评论

还可以，美国视角。战争的通史不好写，很容易埋葬在数字和地名人名堆积中

-----  
美国外交决策的一前一后看得让人揪心。两周读完。平稳的叙事挑不出什么毛病。美国视角写成这样不错了。
