"Ignoring gold and silver this year will cost you more than all the dumb financial decisions you can make put together." Ruff's Little Book of Big Fortunes in Gold and Silver is not written for Wall Street, but for Main Street. It is a detailed guide to a once-in-a-lifetime chance for middle-class Americans to get rich investing in one of history's greatest bull markets. Ruff makes a usually arcane subject easy to understand, and even humorous. This bull market will dwarf even the 500% to 1700% profits his readers made in the metals in the 70s, and as usual, Ruff is out in front. As Yogi Berra said, "It's déjà vu all over again." This small book is deliberately designed to teach the investment novice exactly what to do as the bull market unfolds, including why, how and where to buy precious metals and mining stocks - as well as how to avoid costly mistakes. It is also an essential review for dedicated gold bugs to help them in this new and ever-changing market.
