Your credit score affects every aspect of your financial life including qualifying for loans and mortgages, low interest rates, housing, employment opportunities, and even insurance premiums. Millions of Americans have negative, inaccurate, and unverifiable information on their credit report. Repairing your credit profile is one of the most important financial decisions you can make. You are about to take the important step of taking control of your credit! If you are like the average American, having improved credit will save you thousands of dollars on your loans and credit cards. You do not need a credit repair clinic. Save the money. Everything a credit repair clinic can do for you legally, you can do for yourself at little or no cost using the plan in this book. There are federal laws in place to make sure that you can repair problems on your credit report and increase your credit score. These laws are found in the Fair Credit Reporting Act. This book will show you how to use your legal rights to increase your credit score. You will learn how to remove questionable items from YOUR credit reports, including: late payments, collections, judgements, liens, charge-offs, bankruptcies, foreclosures, repossessions, and identity fraud. This book will be your road map to credit repair information, and give you tips on how to maintain a stronger credit profile, repair bad credit, improve credit scores, and correct personal information.
