Registering sense perceptions with remarkable precision -- the response of the poet to the surfaces and depths of things as well as the world of historical necessity -- Tomlinson's poems embody aspects of both tragedy and possibility. In the tradition of Wallace Stevens, they also record the logic of human perception. William Carlos Williams once said, "(Tomlinson's poetry) gives a refreshing rustle or seething to the words which bespeak the entrance of a new life". Finally, here is the long-awaited compendium of the work of one of this century's great poets.
