From movie making to medical misadventures, meditations on widowhood to feminist protestations, "Expectation Days" is a dazzling portrayal of instances in Sandra McPherson's life. Her autobiographical collection uses peculiar and exact language to reflect on a wide range of activities that include grouse hunting, going through airport security and climbing a coastal cliff. From being an unintended child to ceremonializing a lifetime "served," McPherson speaks in both clear and distressing voices from the state of speechless fear that is bereavement.
