No more profound and intimate expression of America's spiritual life can be found than the work of its poets. From Anne Bradstreet to the Beats, from Native American chant and Shaker hymnody to Walt Whitman and Emily Dickinson, religion and spirituality have always been central to American poetry. In this unique anthology, world-renowned scholar Harold Bloom weaves a tapestry from the many strands of American religious experience and practice: the searching meditations of Puritan pioneers, the evangelical fervor of the Great Awakenings, the mystical currents of Transcendentalism, the diverse influences of the world religions that have taken root in modern America.

Spanning four centuries and more than 200 poets, *American Religious Poems* is a bountiful and moving gathering of voices that offers countless moments of inspiration, solace, meditation, and transcendence. The poems in this unprecedented volume are a lasting testimony to the American spirit and its unremitting quest for ultimate truth and meaning.
