著者:Johnson, Peter

出版者:Consortium Book Sales & Dist

出版时间:

装帧:Pap

isbn:9781877727757

"The cast of characters ... are family members. What we remember of our childhoods are seemingly magical acts by our parents and siblings, acts that do not explain themselves and belong to the realm of myth. Johnson's prose poems return us to that world where our imagination was the hero setting out almost daily on a series of fabulous adventures under the dining room table, which, we might say, rests on the shaky legs of common sense". -- Charles Simic
