A twelve-year-old girl is snatched from the street where she lives. And for two cops, Mack Steiner and Bank Arbaugh--partners, best friends, fathers themselves--the girl's disappearance will hurtle them back through layers of friendship, memory, and loss. Because seven years before, Bank's own daughter vanished without a trace. And now, as police descend on the small midwestern city, as witnesses are grilled and evidence mounts, one case begins to illuminate the other. And for two men, a harrowing journey has begun--one that will test their long, complicated friendship and uncover a chilling truth about two missing girls, two shattered families, and at least one heartbreakin lie.

From the author The New York Times hails as "astonishing" comes a spellbinding blend of raw tension and human drama--a masterpiece of suspense that races toward a devastating climax...then jolts us again with a final, unforgettable twist.
