"They aren't hiding just one something, but a bunch of somethings..." Jessica Caldwell hates the day she met him, and she hates him even more. But now the two of them will

be connected forever...Eli Faulkner is one of the best trial lawyers in Tennessee. It's what he lives for -- righting injustices. When he's called upon to defend Tag Grissom, an arrogant cardiologist accused of murder, he finds himself wondering, could this be more than just a case?Holland Fletcher has always wanted to be a true investigative journalist, but he's never really stepped up to the plate. That is, until he receives an anonymous tip and is plunged into a dangerous realm of intrigue and murder that involves not only the Supreme Court, but the entire nation.
