Following her wildly popular Callahan Brothers trilogy, national bestselling author JoAnn Ross begins the sparkling Stewart Sisters trilogy with this fun, sexy riff on the classic movie To Catch a Thief -- with a Scottish twist! Lily Stewart is busy planning the summer Highland Games at her family's Great Smoky Mountain resort. So the last thing she needs is some arrogant, demanding Scotsman -- no matter how sexy -- arriving to film the annual festival. It's bad enough that he's constantly interrupting her days -- but even worse that he's tempting her to rev up her nights with a Highland fling. Filmmaker Ian MacDougall MacKenzie is actually there to steal back the Brooch of Lorn, which has gone back and forth between the Stewarts and the MacDougalls ever since it was ripped from Robert the Bruce's tartan in 1306. But when Ian realizes Lily has stolen his heart, he wonders whether love can prevail once she discovers he's been deceiving her all along....
