The Black Library's flagship fantasy series is collected together in a stunning new omnibus edition. The adventures of the Black Library's most infamous characters are collected together into one great value omnibus edition! Dwarf trollslayer Gotrek Gurnisson has sworn to seek an honorable death in combat to atone for an unspoken personal disgrace. Chronicling his exploits is human poet Felix Jaeger, a fugitive from the authorities who only has to stay alive to tell the tale! Bringing together the first three novels in the series ("Trollslayer", "Skavenslayer" and "Daemonslayer"), this omnibus is a "must have" for all fans of heroic fantasy.
