In the wealthy New York suburb of Hadley Farms, divorced mom Sara Turner is juggling a new fiancé, a new TV career, and a Newcomer's Club that throws sex-toy parties. Her oldest friend, Kate Steele, is Manhattan's "Derm Darling" –a successful Park Avenue skin doctor whose office is always packed with the city's crème de la thin . . . and whose bedroom is frequented by a real estate mogul who has his own plane—and his own very big problem. Meanwhile, Sara's new neighbor, Berni Davis, has just quit her career as a wildly successful Hollywood talent agent: pregnant with twins, she's leaving behind her A-list parties and high-profile pals, trading in the fast track for the cul-de-sac. Will heating formula be as thrilling as creating the formula for the next box-office blockbuster?

At an age when women expect to find doors closing, forty-one-year-old Sara and her friends are all on the brink of new beginnings. For these three savvy and spirited friends, facing new options at midlife brings unexpected twists—a baby shower starring a male stripper, the latest Brazilian anticellulite treatment, and a day at a doggie spa that features lipo. Complications arise when a long-gone husband returns from Patagonia, a seductive ex-wife fights to win back Sara's fiancé, and a hunky soap star stands waiting in the wings. But in a world where women spend their forties trying to look thirty, and girls as young as four use alpha-hydroxy to keep their skin baby smooth, these best friends help one another keep their priorities straight. Most of the time.

A fresh, funny novel about starting over, *Mine Are Spectacular!* will delight readers with the exploits of these irresistibly witty women. By turns touching and laugh-aloud funny, this is a must read for every woman who knows you're always the right age for new adventures.
