Sixteen Hilarious tales of the paths that shouldn't have been taken Everyone knows that heroes should triumph, dragons should be slain, and maidens should be rescued. But what if things don't go according to plan? Here are fun-filled tales of magic gone awry, from an author whose unicorn protagonist takes control of the story, to a person who can hear food talking, to a confusing case of murder in fairy-tale land-with many strange events and surprising consequences in between.
