Book Description

Pingu loves English

Pingu shares children's own experiences and emotions and provides learners with a much-loved classmate. Pingu loves English is an ideal course for teaching not only language but also values such as understanding, responsibility and friendship.

“Pingu loves English is a terrific example of how learning can be interactive and child friendly. Money raised through the partnership between Longman and UNICEF will make a valuable contribution to our work with some the world's most vulnerable children.”

-----Rudolf Deutekom, Director, Private Sector Division, UNICEF
