This three-level English course for children in primary schools is written and designed to emphasize the importance of the children's own experience and development. Each level consists of a coursebook with games pack; an activity book with resource file; and a set of cassettes. The teacher's book contains a step-by-step guide to every lesson and exercise in both the coursebook and the activity book. It has concrete advice on classroom organization, lesson planning and helpful teaching strategies and techniques. The relevant pages from the coursebook and activity book are reproduced beside the lesson notes.
