Nicole Kidman, Oscar winner, is more than a movie star. She is the leading female celebrity icon of our age, her face and body appear in the media the world over, and she often commands a salary of over 10 million dollars a picture. However, there is something mysterious and not quite settled about her, which is why David Thomson, one of the world's greatest film critics, knew he had to write about her. Whilst there may (just) be more attractive women on the screen, none has such a talent for transforming herself. This is a biography of a curly-red-haired girl from Australia who has become a world-famous actress. It is a searching treatment of the acting and business career, and a tribute by an admirer to a woman who has it in her to move millions of strangers.

书评

游逛了那么久，自己觉得也应该写写妮可了， 写这个完美独特的女人。  
进高中以后就开始了我的住校生活。

每天严格的时间表，日复一日重复而单调的生活令我有些空虚和倦怠。  
直到隔壁寝室的同学贴了很多欧美海报在墙上，我扫射一眼便注意到了妮可。  
那是一张PS水平很差的香奈...
