It's Christmas Eve, and Santa needs to hurry up and deliver his toys! With the help of one of his elves, he quickly gets ready and makes it to a house. But Santa runs into many problems along the way (he gets stuck in the chimney, tracks dirt on the clean carpet, mixes up the toys, etc.), but thanks to the elf, all is eventually well. Throughout this book, there's just one word per page. This unique format will allow kids to build a bridge to reading--word by word.
