No. 1: First Works of 362 Artists showcases âfirstâ works by a raft of the worldâs greatest contemporary artists and art photographers. The artists were asked to submit what they considered their âfirstâ work of art â not the first piece they ever created, but their first âdefiningâ one, the one that set their style and clearly signposted their artistic direction. Their submissions, along with artistsâ statements, make up this fascinating

look at the process of art-making.
