first published,1966

4 edition, 2000

In this new edition, Ralph Berry sets out in clear and concise terms the student's main tasks in the order in which they will be encountered, covering:

- \* choosing a topic
- \* using the library

- \* taking notes
- \* shaping and composing the project
- \* writing cross-references and bibliography

An important new chapter focuses on conducting research via the Internet, and how the World Wide Web is changing research methods in virtually all disciplines.
