The great legacy of the ancient Khmer civilization, the temples of Angkor, cover an area of 77 square miles in central Cambodia. These monuments, built between the ninth and 15th centuries - the classic period of Khmer art - are unrivaled in architectural greatness. They are, undoubtedly, one of the wonders of the world, astounding in their splendor and evoking a real sense of awe. The book is divided into three sections. The first contains background information on Khmer history, religious beliefs and legends depicted on the bas-reliefs, as well as descriptions of the decorations and architectural features. The second part is a detailed, monument-by-monument guide to the sites, including detailed maps and plans, while the third has all the practical information needed by the visitor for staying and getting around in Siem Reap and Phnom Penh.
