isbn:9780060609382

Religion and Science is a definitive contemporary discussion of the many issues surrounding our understanding of God and religious truth and experience in our scientific age. This is a significantly expanded and freshly revised version of Religion in an Age of Science, winner of the American Academy of Religion Award for Excellence and the Templeton Book Award. Ian G. Barbour--the premier scholar in the field--has added three crucial historical chapters on physics and metaphysics in the seventeenth century, nature and God in the eighteenth century, and biology and theology in the nineteenth century. He has also added new sections on developments in nature-centered spirituality, information theory, and chaos and complexity theories.

作者介绍:

Ian G. Barbour has retired from Carleton College where he was professor of physics, professor of religion, and Bean Professor of Science, Technology, and Society. The "preeminent synthetic in the field" (Cross Currents,) he is the author of several influential books, including Ethics in an Age of Technology and Myths Models, and Paradigms, which was nominated for the National Book Award. He gave the world-renowned Gifford Lectures, 1989-1991.

评论

作者是鼎鼎大名的科學家，內容是宗教及神學最高榮譽的Clifford Lecture演講所增訂而成，更榮獲1999年的Templeton Prize。讀這書事緣是要負責「宗教、文化與科學」（我的弱項，可憐）一科的導修課。雖說它是學術書本，但又算不上是太深入的專論，非常欣賞的是作者做到深入淺出、論點精闢等跨學科要領和他的博學（絕對把其他外行神學家談科學或外行科學家談宗教遠比下去！）可是學生們還是投訴讀不懂，沒辦法，對科普、哲學和神學基礎較弱的人

的確有點難度。慨歎我們的教育制度嚴重缺乏人文和科普的傳授！
