The Mongol conquest of north China between 1211 and 1234 inflicted terrible wartime destruction, wiping out more than one-third of the population and dismantling the existing social order. *In the Wake of the Mongols* recounts the riveting story of how northern Chinese men and women adapted to these trying circumstances and interacted with their alien Mongol conquerors to create a drastically new social order. To construct this story, the book uses a previously unknown source of inscriptions recorded on stone tablets.

作者介绍:

Jinping Wang explores a north China where Mongol patrons, Daoist priests, Buddhist monks, and sometimes single women—rather than Confucian gentry—exercised power and shaped events, a portrait that upends the conventional view of imperial Chinese society. Setting the stage by portraying the late Jin and closing by tracing the Mongol period’s legacy during the Ming dynasty, she delineates the changing social dynamics over four centuries in the northern province of Shanxi, still a poorly understood region.

目录: List of Maps, Figures, Plates, and Tables*

Acknowledgments

Preface

List of Abbreviations

A Note to the Reader

Introduction

1. Yuan Haowen and the Degree-Holder Society in the Jin Dynasty
2. The Quanzhen Daoist Order and Postwar Social Reconstruction, 1234–1281

评论

感觉是从头到尾第一本读完的英文学术书

Diligently discover sources to pinpoint a phenomenon of Northern China under Mongol rule. Feel less satisfied by the explanation.

材料非常好，写法优秀，但是至少佛教部分有些我不是很同意...

写得很好，流畅易读，很具启发意义。但是很多结论又没点到最根本。
