"Advanced Chemistry" breaks new ground for A-Level texts with revolutionary computer-generated graphics of molecules that will bring chemistry to life for your students. The authors have years of teaching experience between them, in both school and FE, and bring a refreshing approach to traditional A-Level material. With full mathematical support within 'Maths boxes' and at the end of the book, "Advanced Chemistry" will completely inspire and support chemistry students. The Key Points are: high quality diagrams that support the text; important terms highlighted; and graduated questions and practice.
