In this, the first of three volumes, the reader is taken on a fascinating journey, throughout the solar system, the ancient planetary gods, the energies and motivations symbolised by their astrological equivalents, and the signs of the zodiac. A new and exciting approach to the subject which every student, beginner or advanced, can learn from.

书评

The three volumes are constructed in a lecture style. Clare has done a good job in providing a fair introduction to the symbolic system, compared to most fancy and fashionable cookbook authors. However, there are a bit too much trivia that readers may fee...
