出版者:HarperCollins

出版时间:1990-10

装帧:Hardcover

isbn:9780060164638

Published by Harper Weldon Owen in association with American Farmland Trust, this is

a large (10x14") book of illustrations with a modest amount of text and extensive captions to the splendid color photos. The perspective of aerial photography lends a fascination (and beauty) to farmland that escapes the earthbound observer. The captions and dramatic visual effects elucidate the sophistication of current farming methods.
