In the summer of 1876, Robert Louis Stevenson made a trip by canoe from Antwerp through northern France. Accompanying him was his friend Walter Simpson.

Written when he was twenty five and published in May of 1878 "An Inland Voyage" was R.L.S.'s first published work.

His descriptive abilities, that the reader finds in such works as "Kidnapped" and "Treasure Island" are first showcased here.

Definitely a book to be read at an unhurried and leisurely pace.
