著者:Andrea Marescalchi

出版者:Charta

出版时间:2004-08-02

装帧:Hardcover

isbn:9788881584765

This book offers a sophisticated portrait, through previously unpublished works, of a man who first and foremost was a philosopher of depth, subtlety, and irony. Alighiero e Boetti invented and reinvented the world via the freest of artistic intervention, ever subverting its conventions. Order and Chaos = Alighiero e Boetti. Included are his graphite reproductions of magazine covers from 1986, his postal works, and his always astonishing maps--master pieces of thought as much as of art, if not more.
