isbn:9780897090322

Mother Knows Best is that "easy reference manual" parents wish had come with their baby! Two mom's compiled their home-learned wisdom along with the best tips from mothers across the nation to bring you key information covering a wide variety of areas from bathing, feeding, bedtime and illnesses to organization, pets, parties and sitters. Learn tips on preparing the first child for a new brother or sister. Find practical tips on dealing with twins! Get creative ideas to make car or airplane travel more fun and less hectic. Walk through the safety check for each room of the house and use the key, inexpensive ideas to make your home a safe place for your little one(s)!

What merits calling the doctor and what are symptoms of problems readily solved by a loving parent with a little right knowledge ... see the chapter on "illness"! Want to avoid making battles out of mealtime or sleeptime...see the awesome section on "Sleeping Habits" and the extensive tips on Feeding Time from "nursing" to "fussy eaters" and "feeding toddlers" to "clean up"!

The authors understand that parents are too busy raising their family to read entire books on "how to parent!" Mother Knows Best dishes out wisdom in short BITE-SIZED capsules, most of which are no longer than a short paragraph! An index by topic and chapter breakdowns by age (when appropriate) help you search easily for specific answers. The book lends itself well to "bathroom reading" for those few periodic, necessary moments you are "alone."
