Cassie is skinny, clever, charismatic, successful — every right-thinking girl's worst nightmare. The one flaw in her quality-controlled life may be her marriage, and if there are any other flaws lurking, Cassie has them covered. Her sister Lizbet is plumper, plainer, dreamier — more concerned about the design on her coffee cup than whether she can afford her new house. She works reluctantly for Ladmag, desperate to make her name as a writer, but stuck writing embarrassing articles on sex. Her one achievement is her relationship with Tim who thinks she's cute, not stupid, for asking why Jesus has a Mexican name.

Despite Cassie being the favoured child, she and Lizbet have managed to stay friends. But that's about to change. Confronted by challenges they never asked for, forced apart by mistakes not their own, will they ever understand the real meaning of sisterhood, or will true nature ruin everything...?
