著者:Rebecca Mann & Candice Dunn

出版者:Murdoch Books

出版时间:2006年

装帧:平装

isbn:9781740458634

"Kids' View of the World" is an enchanting look at the world through the innocent eyes of children. It features children's thoughts together with beautiful black and white photographs and children's drawings. Children from across Australia were questioned about the world around them and their unfiltered responses have been paired with evocative images in this unique book. A wide range of topics are covered, from the serious issues of war and peace, love, marriage and relationships, to lighter hearted subjects such as fairies, Santa Claus and playground friends.
