A regular trip to the store to buy milk turns into an unusual adventure when Myron meets a blond-haired girl traveling through town with three bears. In a split second, the girl persuades Myron to trade his milk money for a real cow! But Myron discovers this is no ordinary cow— not only does she give milk (fat-free and two percent!), but she grants wishes too!

This highly entertaining story that puts new twists on traditional tales teaches young readers that sometimes the wisest wishes are for the simplest things. What would you wish for?
