Is dressing a home the same as dressing a body? "Fashion Designers at Home" attempts to answer that question by looking inside the homes of over twenty of today's hottest fashion designers, revealing them to be incredibly talented interior designers as well. Perfect for both the fashion and interior design enthusiast, "Fashion Designers at Home" shows that the talents behind the worlds most fashion-forward clothing and accessories artists who place so much importance upon the choice of a cut, the nuances of a colour, and the feel of a certain material have also created some of the worlds most lavish and inspiring interiors.
