These engaging wipe-off workbooks from Sesame Workshop and Learning Horizons are designed so your child can have fun learning right along with all the Sesame Street friends. Children can write with a water-based marker or crayon, and then wipe off marks with a tissue or cloth. With this format, children can have hours of fun and repeated practice.

In Colors On My Plate , your child will join with Sesame Street friends in learning about healthy foods. Children will learn how to “eat their colors” and make good food choices. A special “Explore More” feature provides many easy to do family activities to extend learning in practical ways.
