Boost! Reading is part of a 4-level series for junior learners, that develops functional reading skills like clarification, explanation, description and persuasion.

## Skill Practice:

- \* A very simple introduction of the targeted unit skill is followed by a skill discovery activity.
- \* A graded, content-based reading passage, with supporting audio, sets up the main skill practice.
- \* A skill practice task is followed by a vocabulary-building activity.

## Integration:

- \* The reading skill is combined with listening, writing and speaking activities.

## Review:

- \* After every two core units there is a Review quiz which consolidates the reading skills already studied.
