isbn:9780971932500

This highly entertaining book (complete with hilarious and shocking cartoon

illustrations that forever stamp your brain with these valuable lessons) describes in precise detail the sneaky mind control psychology anyone can use to get people to do their bidding. Of course, the focus of this book is on the Internet, so it's over-flowing with examples of ways you can use these ideas to turn your website into a busy cash register.
