Zoro is a little boy in 17th-century Italy, long before airplanes flew in the sky. But Zoro is also an apprentice to the artist and inventor Leonardo da Vinci and Leonardo is experimenting with a revolutionary flying machine. This is a title in Barron's "Anholt's Artists Books for Children" series, in which author and illustrator Laurence Anholt

recalls memorable and sometimes amusing moments when the lives of the artists were touched by children. Anholtas fine illustrations appear on every page and include reproductions of works by the artists.
