The fourth edition of this popular book. The third edition (ISBN: 0761526943) has had a strong history since it was published in October of 2000. This new edition includes information on using graphics tools such as Paint Shop Pro, Photoshop, Fireworks, and Mapedit, as well as updated tutorials with new, real-world examples. The most significant updates should be to the tables, forms, and graphics tutorials. All tutorials will be standards-based and feature designing valid HTML 4.01 Web pages.
