Imagine if every employee does what it takes to help his or her organization reach its goals, a place where everyone is a leader.

If chaos and confusion come to mind, think again! Spreading leadership and decision-making responsibilities liberates, inspires, and motivates everyone to achieve more and contribute the maximum-making a positive impact on both productivity and business results.

Step in, CLIMB(TM) up.

Based on a landmark study that involved 2,000 people across 450 organizations, *Everyone A Leader* explores the critical moments when employees at all levels step forward into leadership roles. The findings are summarized in five key strategies the authors call the CLIMB model of leadership effectiveness:

- * Create a compelling future.
- * Let the customer drive the organization.
- * Involve every mind.
- * Manage work horizontally.
- * Build personal credibility.

Each chapter in this breakthrough book brings the CLIMB strategies to life with powerful first person stories and anecdotes that effectively highlight the small, often-overlooked turning points in an organization's daily life. Turning points made possible by grassroots leaders.

The CLIMB model's step-by-step tools for grassroots leaders build competencies such as presenting thoughts and ideas, listening proactively, giving recognition, managing priorities, turning conflict into collaboration, identifying and meeting unspoken customer needs, and many, many more.

No other book offers such compelling proof that-equipped with proper tools and support-everyone has the potential to be a leader and to make a difference. To remain agile and responsive in today's dynamic global marketplace, successful organizations recognize the critical need for greater flexibility, knowledge, and adaptability across the entire organization. To do so means everyone must learn to be a leader.
