《外滩150年完全影录》主要内容：Huangpu River is reputed as the “Mother River” of Shanghai and has given birth to the city’s splendid modern history. The Bund occupies a sector at its west bank. As the essence of Shanghai’s over-a-hundred-year-history, the Bund is always the first priority to visitors.

The distinctive buildings along the Bund are of various styles and have won the

reputation of “the Architecture Expo” 。 Renowned international banks stand side by side and constitute the “Oriental Wall Street” 。 With its 10 scenic spots that can be traced back to over a hundred years ago, such as “Moonlight on the Bund” and “the Lovers ‘Wall” ， the Bund has now become a public recreational area full of romance。

The changes of Shanghai from a coastal village to an international cosmopolis have been vividly recorded by the Bund, which combines well the eastern and western cultural essence and reflects a timeless fascination。
