When a beautiful, spoiled heiress' life is turned upside-down, she flees London seeking help from her great-great uncle. When she learns he will not return to his estate for a month, she has no choice but to take a job as a maid in a country manor. Little does she know the manor is owned by the parents of the man whom she refused to marry months before. When he unexpectedly shows up, he recognizes her and gives her an ultimatum--keep working, or he will reveal her secret which could land her in jail! But the longer she stays, the harder it is to deny another secret...her growing love for the handsome nobleman.
