Serious developers must stay ahead of the curve by ensuring that they are up-to-date with all of the latest standards. This book illustrates the many benefits that can be realized with component-based UI development using Web Dynpro for ABAP. On the basis of specifically developed sample components, readers are introduced to the architecture of the runtime and development environment and receive highly-detailed descriptions of the different functions and tools that enable you to efficiently implement Web Dynpro technology on the basis of SAP NetWeaver 2004s. Numerous code listings, screen captures, and little-known tricks make this book your indispensable companion for the practical design of modern user interfaces.
