## Product Description

Placing Blanchot at the centre stage of writing in the twentieth century, Maurice Blanchot: Extreme Contemporary sheds new light on Blanchot's political activities before and after the Second World War.

## Synopsis

Providing an insight into one of the key figures in the development of postmodern thought, this work shows how Maurice Blanchot questions the very existence of philosophy and literature and how we may distinguish between them. The author stresses the importance of Blanchot's political writings and the relationship between writing and history that characterized his later work. He also considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted his work. A bibliography of his writings of the last twenty years is also included.
