著者:Peter Winkler

出版者:A K Peters/CRC Press

出版时间:2007-8-17

装帧:Paperback

isbn:9781568813363

Peter Winkler is at it again. Following the enthusiastic reaction to "Mathematical Puzzles: A Connoisseur's Collection", Peter has compiled a new collection of elegant mathematical puzzles to challenge and entertain the reader. The puzzles in this collection include an eclectic collection of twists on old favorites, "severe" difficulty puzzles, and puzzles that were recently solved or remain unsolved. This book is for lovers of mathematics, lovers of puzzles, lovers of a challenge. Most of all, it is for those who think that the world of mathematics is orderly, logical, and intuitive - and are ready to learn otherwise!
