Ron Mueck- who has set new records of the total number of the visitors at all the museum he held his solo show- is undoubtably one of the most notable artist who has been appreciated in all over the world.

The work "In Bed" shown as a main work in the exhibition "Collection of the Foundation Cartier pour l'art contemporain" at MOT\_Tokyo, made a big sensation as a first introduction of his work in Japan.

The unmistakable characteristic of Ron Mueck's works is in, among others, the extremely "realistic" representation and the "unrealistic" size of the works. Numbers of delicate, minute and elaborate works of Ron Mueck portray also the internal working of human, and create an atmosphere of unique world of the artist.

To accompany with his first major solo exhibition in Japan at 21st Century Museum of Contemporary Art, Kanazawa, his also the first collection book will be published in the end of April, 2008. This book of Ron Mueck will be definitely the best ever book which approaches to the transcendental works of the phenomenal artist!
