出版者:Koeltz Scientific Books

出版时间:2002

装帧:Hardcover

isbn:9783904144797

Presents an up-to-date view on Nepal's herpetofauna. General chapters cover aspects of zoogeography, herpeto - ethology and conservation. Each species is treated comprehensively, including the essentials of morphology, ecology, systematics, and

zoogeography. The geographic distribution of each species is presented in two ways: in a grid map of Nepal and in a regional map.
