Prepare to set sail on a drunken fever dream of dollies, apes, and exotic mysteries that, once seen, can never be un-seen! "The Art of Tony Millionaire" collects illustrations, comics, stories, photographs, and anecdotes from the man once referred to as 'Beefy

McManus' by the late rock star 'Rocky Stardomes'...the one and only Tony Millionaire! Thrill to never-before-seen illustrations that have made women gasp and grown men gasp, too! Partake in the beautiful genius of the only cartoonist in the history of mankind to have won five Eisner Awards, three Harvey Awards, and an Ignatz! He also won Best Marksman at summer camp when he was twelve, but lost the Art Competition in high school to a girl who drew a lovely ear of corn! Now, finally, more than ever ..."The Art of Tony Millionaire".
