著者:Richard M. Gale

出版者:Cambridge University Press

出版时间:1993-07-30

装帧:Paperback

isbn:9780521457231

There has been in recent years a plethora of defences of theism from analytical philosophers: Richard Gale's important book is a critical response to these writings. New versions of cosmological, ontological, and religious experience arguments are critically evaluated, along with pragmatic arguments to justify faith on the grounds of its prudential or moral benefits. In considering arguments for and against the existence of God, Gale is able to clarify many important philosophical concepts including exploration, time, free will, personhood, actuality, and the objectivity of experience.
