You know the value of effective collaboration - make it a reality with "Notes and Domino". The latest release of "Notes and Domino" makes collaboration and information management easier than ever. Whether you're a user or a developer, "Mastering Lotus Notes and Domino 6" ensures that you get everything you can out of this integrated collection of powerful, flexible business tools. Thanks to practical,

step-by-step instruction from a team of top Notes/Domino experts, you'll master these fundamentals. Coverage of the title includes: organizing and optimizing your email and calendar interactions; delegating tasks to others using the To Do list, meeting delegation, and calendar authorization; using notes' powerful, built-in search facility as well as searching internet directories using LDAP; keeping information current with replication; protecting your information assets with Notes/Domino security; browsing the web from inside the Lotus Notes client and accessing Domino databases with a web browser; managing your email and calendar with iNotes; building Domino applications using forms, views, and pages; and using framesets, outlines, and navigators in an application. The coverage also includes: designing applications for use by a Notes client and a web browser; creating shared resources for re-usability in a database; using mail rules to filter incoming messages and control spam; creating connection and location documents to communicate with a Domino server; customizing replication by controlling what replicates and when; encrypting sensitive information; integrating notes with Microsoft Excel and connecting to external databases using ODBC; coding actions for use in forms and views; programming workflow using Formula Language and learn about advanced programming techniques; and exploring the Lotus Script language and the Domino event model.
