In Lauren Grodstein's debut novel, *Reproduction Is the Flaw of Love*, Joel Miller spends a Saturday afternoon standing outside the bathroom door of the Brooklyn apartment

he shares with his girlfriend as she takes a pregnancy test to determine their fate as parents, and ultimately as a couple. To occupy the time (both Miller's and our own), Grodstein takes us on a journey through Miller's 28 years, a trip which starts with his father's departure and his mother's madness, continues in a cheap apartment in Queens where he falls in love with a high society girl from Park Avenue, and finally culminates back in the Brooklyn bathroom. Along the way, Grodstein does a commendable job of interpreting the male perspective on grief, ecstasy, love, and eventually heartbreak over the one that got away
