"We have, at long last, a real historian with real historical skills and no intra-professional ax to grind. . . . All these pieces show the virtues one finds missing in . . . nearly all of anthropological history work but [Stocking's]: extensive and critical use of archival sources, tracing of real rather than merely plausible intellectual connections, and contextualization of ideas and movements in terms of broader social and cultural currents. Stocking writes very clearly; attacks important topics--race and evolution, the influence of scientism, the interaction between anthropology and other disciplines; and is methodologically very sophisticated. Though his main theme is the development of racialism and of opposition to it, his book bears on a range of issues very much alive in anthropology. . . . I would think no apprentice anthropologist ought to be pronounced a journeyman until he or she has absorbed what Stocking has to say."--Clifford Geertz, The Institute for Advanced Study, Princeton

评论

这套由芝加哥大学Stocking教授撰写的人类学的学科史，水平一流，远比市面上流行的拼贴综述要好。

一边读一边写一边吐血。。。不过比savage
mind和纯粹理性批判强。都是在历史人类学的课上的。。。。
